### 2 BULB T8 WIRING DIAGRAM

#### 2 bulb t8 wiring pdf

The fluorescent bulbs are NOT the source of the hum. Rather it is the ballast required for them to operate. To use the Toggled bulb, you first remove the old ballast, make a small wiring change in the fixture (explained in the directions with the LED bulbs) put in the new LED's, and you are good to go.

A fluorescent lamp, or fluorescent tube, is a low-pressure mercury-vapor gas-discharge lamp that uses fluorescence to produce visible light. An electric current in the gas excites mercury vapor, which produces short-wave ultraviolet light that then causes a phosphor coating on the inside of the lamp to glow.
