AC/DC Output for T5 or T8 lamps Linear Fluorescent One- or

A fluorescent lamp, or fluorescent tube, is a low-pressure mercury-vapor gas-discharge lamp that uses fluorescence to produce visible light. An electric current in the gas excites mercury vapor, which produces short-wave ultraviolet light that then causes a phosphor coating on the inside of the lamp to glow.

Fluorescent lamp - Wikipedia

The 4-Light Fluorescent Heavy-Duty Shop Light from Lithonia Lighting comes fully assembled and ready to install. A wire guard protects the four fluorescent bulbs from damage and is easily detachable without the use of tools.
